

Parallel kits EAMM-U

FESTO

Festo core product range
Covers 80% of your automation tasks

Worldwide:

Always in stock

Superb:

Festo quality at an attractive price

Easy:

Reduces procurement and storing complexity

Ready for dispatch from the Festo factory in 24 hours
Held in stock in 13 service centres worldwide
More than 2200 products

Ready for dispatch in 5 days maximum from stock
Assembled for you in 4 service centres worldwide
Up to 6×10^{12} variants per product series

Look for the star!

Parallel kits EAMM-U

Key features

At a glance			
	For axis	Description	→ Page
Parallel kits EAMM-U-...-D			
	• Electric cylinder ESBF • Mini slide EGSL	• The kit can be mounted in all directions • Transmission ratio: $i = 1$ • Optionally with degree of protection IP65 • Third-party motors can be connected. You can find out which motors are permitted from your local Festo contact or from → www.festo.com/sp/eamm	4
Parallel kits EAMM-U-...-S			
	• Spindle axis ELGA-BS • Spindle axis EGC-BS • Spindle axis EGC-HD-BS	• The kit can be mounted in all directions • Transmission ratio: $i = 1$ • A counter bearing EAMG and a clamping sleeve EAMH-...-P with integrated trunnion are included in the scope of delivery of the parallel kit to provide support for the axis shaft • Third-party motors can be connected. You can find out which motors are permitted from your local Festo contact or from → www.festo.com/sp/eamm	4
Parallel kits EAMM-U-...-V/T			
	• Mini slide EGSC-BS • Spindle axis ELGC-BS	• The kit can be mounted in all directions • Transmission ratio: $i = 1$ • Third-party motors can be connected. You can find out which motors are permitted from your local Festo contact or from → www.festo.com/sp/eamm	25
Parallel kits EAMM-U-E			
	• Spindle axis DGE-SP • Positioning axis DMES	• The kit can be mounted in all directions • Transmission ratio: $i = 1$	30

Note

Depending on the combination of motor and drive, it may not be possible to reach the maximum feed force of the drive in certain circumstances.

When using parallel kits, the no-load driving torque of the respective kit must be taken into consideration.

Key features

FESTO

Accessories for parallel kit EAMM-U-...-D/S

Clamping element EADT

→ Page 21

For setting the toothed belt pretension with EAMM-U-110 and EAMM-U-145. The motor is pushed away from the axis mechanism by rotating the clamping element secured in a hole in the housing (the motor can be moved in a slot for this purpose). This enables high toothed-belt pretension forces to be generated with low torques at the clamping element.

Counter bearing EAMG

→ Page 21

A counter bearing EAMG reduces the load on the axis or motor bearings to improve the service life under high loads. A clamping sleeve EAMH-...-P is additionally required for each counter bearing.

Clamping sleeve EAMH-...-P

→ Page 22

To retrofit the counter bearing, the clamping sleeve without trunnion, included as standard in the parallel kit, must be replaced by the spring pin EAMH-...-P with integrated trunnion.

Clamping sleeve EAMH-...

→ Page 23

Clamping sleeves for adapting third-party motors with deviating shaft diameters to the parallel kits.

Seal set EADS-F-...

→ Page 24

Spare part for sealed parallel kit EAMM-U-...-S1, between motor and kit.

Parallel kits EAMM-U-...-D/S

Parallel kits EAMM-U-...-D/S

Product range overview

FESTO

Permissible axis/motor combinations with spindle axis EGC-BS

- The kit can be mounted in all directions
- A counter bearing EAMG and a clamping sleeve EAMH-...-P with integrated trunnion are included in the scope of delivery of the parallel kit to provide support for the axis shaft
- Third-party motors can be connected. You can find out which motors are permitted from your local Festo contact or from
→ www.festo.com/sp/eamm

Operating and environmental conditions		
Gear ratio		1:1
Ambient temperature [°C]		−10 ... +60
Storage temperature [°C]		−25 ... +60
Protection class ¹⁾		
EAMM-U-...		IP40
EAMM-U-... S1		IP65
Relative air humidity [%]		0 ... 95
Corrosion resistance class CRC ²⁾		2
Note on materials		RoHS-compliant

1) Only in combination with attached motor and axis.

2) Corrosion resistance class CRC 2 to Festo standard FN 940070

Moderate corrosion stress. Indoor applications in which condensation may occur. External visible parts with primarily decorative requirements for the surface and which are in direct contact with the ambient atmosphere typical for industrial applications.

- ★ Ready for dispatch in 5 days maximum from stock

Parallel kits EAMM-U-...-D/S

Accessories

Clamping element EADT

Materials:

Polymer

RoHS compliant

This enables high toothed belt pretension forces to be generated with low torques at the clamping element.

For setting the toothed belt pretension with EAMM-U-110 and EAMM-U-145. The motor is pushed away from the axis mechanism by turning the clamping element secured in a hole in the housing (the motor can be moved in a slot for this purpose).

Can only be used in combination with parallel kit EAMM-U-...-D/S.

Ordering data					
Type	Ambient temperature [°C]	Weight [g]	Part No.	Type	
EADT-E-U1-110	-10 ... +60	9	1461069	EADT-E-U1-110	

Counter bearing EAMG

Materials:

Wrought aluminium alloy

RoHS compliant

Can only be used in combination with parallel kit EAMM-U-...-D/S.

A counter bearing EAMG reduces the load on the axis or motor bearings to improve the service life under high loads. A clamping sleeve EAMH-...-P is additionally required for each counter bearing.

Clamping sleeve EAMH-...-P, with trunnion

Materials:

Corrosion-resistant steel

RoHS compliant

Can only be used in combination
with parallel kit EAMM-U-...-D/S.

To retrofit the counter bearing, the clamping sleeve without trunnion included as standard in the parallel kit must be replaced by the clamping sleeve EAMH-...-P with integrated trunnion. The appropriate clamping sleeve size for the counter bearing is determined by the size of the parallel kit.

Parallel kits EAMM-U-...-D/S

Accessories

FESTO

Clamping sleeve EAMH, without trunnion

Materials:

Corrosion-resistant steel

RoHS compliant

Can only be used in combination with parallel kit EAMM-U-...-D/S.

Clamping sleeves for adapting third-party motors with deviating shaft diameters to the parallel kits.

Parallel kits EAMM-U-...-D/S

Accessories

FESTO

Seal set

RoHS compliant

Spare part for degree of protection to IP65. Seal between:

- Motor and parallel kit
- Motor and gear unit
- Motor and geometry of customer equipment

Note

The seal reduces the dissipation of heat between the motor and flange. Note derating of motor.
